future timelike infinity (i⁺) t = + ∞
v
future timelike infinity (i⁺) t = + ∞
future singularity r = 0
negative future lightlike infinity (I⁺)
II
Black Hole
positive future lightlike infinity (I⁺)
horizon r = 2 GM
negative spacelike infinity (i⁰) r = −∞
III
I
positive spacelike infinity (i⁰) r = + ∞
u
anti-horizon r = 2 GM
negative past lightlike infinity (I⁻)
IV
White Hole
positive past lightlike infinity (I⁻)
t = −∞ past timelike infinity (i⁻)
past singularity r = 0
t = −∞ past timelike infinity (i⁻)
